About the client

The client is a newly established German Indian Medical Joint Venture Company setting up India's first ever organized chain of **Fertility Centers** in leading cities of the country. The client, a newly startup wanted to have a robust Financials Application, which could integrate with multiple operational systems and facilitate centralized MIS Reporting.

The Solution

Direction studied the requirements and implemented Microsoft Dynamics NAV, comprising of the following modules:

- Financial Management
- Fixed Assets
- Sales
- Purchases
- Inventory

The following were additionally implemented:

- Additional Reports for tracking treatment-wise cost analysis and profitability
- Snapshot of drugs availability at clinics across all the entities

The following add on modules were also implemented.

- Clinic Accounting

The implementation enabled the client to get up to date information on various operational aspects of the company.

The Technology:

Front End: Microsoft Dynamics NAV 2009

RDBMS : SQL Server

Operating System: Windows
