

# ERP in Action: 7 Industries Seeing Real Change

ERP isn't just about accounting anymore.  
It's reshaping operations, compliance, and customer  
experience across industries.  
Here's where it's making the biggest impact right now.

1

## Manufacturing

### From planning to production in sync

Tracks materials, predicts delays, automates scheduling, and connects production to demand for higher efficiency and fewer bottlenecks.

2

## Hospitality

### ERP connects front-desk to back-office

Manages bookings, procurement, housekeeping, and guest history from a single system. Enables personalized service and smarter staffing.

3

## Pharmaceuticals

### Compliance-ready, batch-perfect systems

Maintains batch traceability, documentation, and audit trails while ensuring strict compliance with FDA and global standards..

## Banking

### Built-in compliance, real-time control

Streamlines reporting, risk management, and procurement while maintaining full regulatory compliance and financial visibility.

4

5

## Real Estate

### Better oversight for every property

Centralizes leases, contracts, projects, and financials—offering full visibility across the portfolio and lifecycle of assets.

## Government bodies

### More transparency, less paperwork

Simplifies budgeting, procurement, and grants tracking while improving inter-departmental coordination and citizen services.

6

7

## Services

### Projects, people, billing—together

Keeps client projects, time tracking, billing, and resource allocation all in sync. Great for consulting, IT, and legal firms.

# ERP IMPACT!

ERP, when implemented right, becomes a true business enabler.

Direction Software LLP helps you get there—with 20+ years of industry-specific Microsoft Dynamics 365 expertise.

#### DIRECTION SOFTWARE LLP
