REAL-TIME
MANUFACTURING INSIGHTS WITH
POWER BI + BUSINESS CENTRAL

Unlock real-time visibility across your manufacturing operations by integrating Microsoft Power BI with Business Central ERP. Turn raw data into smart decisions - faster and more efficiently.

End Data Silos
Connect production, inventory, and finance data in one View.

Live Dashboards
Monitor KPIs like OEE, defects & output in real time.

Instant Alerts
Get notified immediately when issues arise.

Quality Insights
Identify patterns in defects to prevent escalation.

Executive Visibility
Access strategic dashboards for big-picture oversight.

Predictive Analytics
Forecast breakdowns & prevent unplanned downtime.
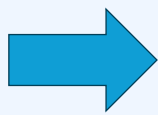

Fast Implementation
Use pre-built dashboards - no need to start from scratch.

Scalable & Secure
Runs on Microsoft's trusted cloud ecosystem.

Data Source
(Shop Floor Machines) → **Business Central ERP** → **Power BI** → **Dashboard / Reports**
