

# Business Central Success

Navigating Dynamics 365 Business Central post-implementation? Here's a 90-day plan for smooth sailing and maximizing your investment.

1

## Stabilize The System

**First 30 days:** Address immediate issues, bug fixes, and performance tweaks. Ensure core processes run smoothly.

2

## User Training Focus

**Days 31-60:** Provide ongoing training. Focus on advanced features and workflows. Address user questions promptly.

3

## Optimize & Refine

**Days 61-90:** Review Processes, Identify Bottlenecks. And Implement optimizations. Automate where possible.

## Blueprint Recap

Follow this plan for a successful Business Central go-live. Stabilize, train, and then optimize. You got this!
